

## **MRI dt™ Inc. Quality Policy:**

It is the policy of MRI dt™ to provide high-quality, timely, and cost-effective assessment and testing services for MRI-conditional medical devices that satisfy the individual needs and expectations of our clients, through all project management processes.

We commit to good professional practices and the continuous improvement in our quality management systems to ensure the safe and effective use of our clients' products and services within the Magnetic Resonance Imaging environment.

MRI dt Inc. has implemented and maintains a Quality Management System that conforms to ISO 17025:2005.

MRI dt specific objectives with respect to Quality are:

1. To meet customer needs and expectations in our services;
2. To protect and control customer confidential information and property at all times;
3. To avoid involvement in any activities that would diminish confidence in our competence, impartiality, judgement, or operational integrity;
4. To operate a well-defined and well-managed organizational structure, with clear relationships between quality management, technical operations, and support services;
5. To provide accurate, reliable, and consistent test results;
6. To continually improve and upgrade our testing facilities and capacity;
7. To complete our services in a timely manner;
8. To provide services in a cost-effective manner;
9. To provide ongoing support of MRI dt testing results to clients during regulatory submissions and/or reviews;
10. To return customer property when requested and in a safe manner.

In order to achieve these objectives, MRI dt has committed to the continued application of appropriate resources for the maintenance and development of our testing and calibration facilities and procedures.

This Quality Policy, including the specific objectives defined above, will be reviewed annually.
